Preparing for the exam *xix*

Chapter 1: Implement Websites 1

Objective 1.1: Deploy Websites 1

- Creating an Azure website 2
- Defining deployment slots 4
- Swapping deployment slots 6
- Publishing an Azure website 7
- Deploying WebJobs 7
- Objective summary 9
- Objective review 9

Objective 1.2: Configure websites 10

- Configuring site settings 11
- Configuring a custom domain for a website 14
- Configuring SSL certificates for an Azure website 16

Configuring Azure Traffic Manager 18
Configuring handler mappings 22
Configuring handler mappings using Azure PowerShell 23
Configuring virtual applications and directories 23
Using the Azure Cross-Platform Command-Line Interface tools for configuration tasks 24
Objective summary 26
Objective review 27
Objective 1.3: Configure diagnostics, monitoring, and analytics 28
Enabling application and site diagnostics 28
Retrieving diagnostic logs 30
Viewing streaming logs 32
Monitoring website resources 34
Configuring endpoint monitoring and alerts 36
Configuring alerts based on metrics and events 37
Monitoring Azure services 38
Configuring analytics 39
Configuring backup 40
Objective summary 42
Objective review 43
Objective 1.4: Configure scale and resilience. 44
Configuring Autoscale using schedules 44
Configuring Autoscale using metrics 46
Scaling up a website instance 47
Objective summary 48
Objective review 48
Objective 1.5: Manage hosting plans 48
Creating a new web hosting plan 49
Creating a website within an existing web hosting plan 50
Migrating websites between hosting plans 50
Objective summary 51
Objective review 52

www.it-ebooks.info

Answers. 53
Objective 1.1: Thought experiment 53
Objective 1.1: Review 53
Objective 1.2: Thought experiment 54
Objective 1.2: Review 55
Objective 1.3: Thought experiment 56
Objective 1.3: Review 56
Objective 1.4: Thought experiment 57
Objective 1.4: Review 58
Objective 1.5: Thought experiment 58
Objective 1.5: Review 58

Chapter 2: Implement virtual machines 61

Objective 2.1: Deploy workloads on Azure virtual machines (VMs) 61
Identifying supported workloads 62
Creating virtual machines 62
Managing the lifecycle of a virtual machine 80
Connecting to virtual machines 82
Objective summary 86
Objective review 86

Objective 2.2: Implement images and disks. 87
Uploading and downloading virtual hard disks 88
Copying virtual hard disks between storage accounts and subscriptions 89
Virtual machine images 89
Creating images and disks from a virtual hard disk 92
Managing data disks 96
Deleting images and disks 98
Objective summary 99
Objective review 100

www.it-ebooks.info

Objective 2.3: Perform configuration management 100
Using the custom script extension 101
Implementing Windows PowerShell Desired State Configuration 103
Using the Virtual Machine Access Extension 109
Enabling the Puppet virtual machine extension 110
Enabling the Chef virtual machine extension 111
Extensions without cmdlets 111
Objective summary 112
Objective review 113
Objective 2.4: Configure VM networking 114
Understanding cloud services 114
Configuring endpoints 115
Configuring access control lists 119
Configuring reserved IP addresses 120
Configuring public IP addresses 121
Objective summary 122
Objective review 123
Objective 2.5: Configure VM for resiliency 124
Configuring availability sets 124
Scaling a virtual machine up and down 125
Implementing Autoscale 126
Objective summary 129
Objective review 129
Objective 2.6: Design and implement VM storage 130
Configuring virtual machine disk caching 130
Planning for storage capacity 131
Implementing disk redundancy for durability 131
Implementing disk redundancy for performance 132
Implementing Azure Files 133
Encrypting disks 134
Objective summary 134
Objective review 135

Objective 2.7: Monitor VMs. 136
Configuring metrics and alerts 136
Configuring endpoint monitoring 138
Configuring diagnostics 138
Objective summary 140
Objective review 140
Answers. 142
Objective 2.1: Thought experiment 142
Objective 2.1: Review 142
Objective 2.2: Thought experiment 143
Objective 2.2: Review 143
Objective 2.3: Thought experiment 144
Objective 2.3: Review 144
Objective 2.4: Thought experiment 145
Objective 2.4: Review 145
Objective 2.5: Thought experiment 146
Objective 2.5: Review 146
Objective 2.6: Thought experiment 147
Objective 2.6: Review 147
Objective 2.7: Thought experiment 148
Objective 2.7: Review 148

Chapter 3: Implement Cloud Services 151

Objective 3.1: Configure Cloud Services and roles 151
Configuring role instance count 152
Configuring role operating system settings 155
Configuring In-Role Cache for Microsoft Azure Cache 157
Configuring a custom domain 160
Configuring SSL 162
Configuring a reserved IP address 164
Configuring network traffic rules 166
Restricting web role access 168
Configuring local storage 170

www.it-ebooks.info

Configuring role instance size 172
Configuring multiple websites on a web role 173
Configuring remote desktop 176
Objective summary 177
Objective review 178
Objective 3.2: Deploy and manage Cloud Services 180
Packaging a cloud service 180
Deploying a cloud service 182
Perform a virtual IP swap 187
Updating a cloud service deployment 187
Scaling a cloud service 189
Creating a Service Bus namespace 193
Objective summary 195
Objective review 195
Objective 3.3: Monitor Cloud Services 196
Monitoring a cloud service 196
Configuring endpoint monitoring 199
Monitoring a Service Bus queue 200
Monitoring a Service Bus topic 201
Monitoring a Service Bus relay 202
Monitoring a Notification Hub 202
Collecting diagnostics data 203
Objective summary 205
Objective review 205
Answers. 206
Objective 3.1: Thought experiment 206
Objective 3.1: Review 206
Objective 3.2: Thought experiment 209
Objective 3.2: Review 209
Objective 3.3: Thought experiment 210
Objective 3.3: Review 210

Chapter 4: Implement storage **213**

Objective 4.1: Implement blobs and Azure files 213
Managing blob storage 214
Understanding storage account replication options 216
Using the async blob copy service 218
Configuring, and using, Azure files 220
Using the Import and Export service 221
Implementing Content Delivery Network 223
Configuring custom domains 226
Objective summary 228
Objective review 228

Objective 4.2: Manage access. 229
Managing storage account keys 230
Creating, and using, shared access signatures 231
Using a stored access policy 232
Objective summary 233
Objective review 233

Objective 4.3: Configure diagnostics, monitoring, and analytics 234
Configuring Azure Storage Diagnostics 235
Analyzing diagnostic data 236
Enabling monitoring and alerts 238
Objective summary 240
Objective review 240

Objective 4.4: Implement SQL databases 241
Choosing a service tier 241
Implementing point-in-time recovery 243
Implementing geo-replication 245
Scalability strategies 249
Importing and exporting data 252
Objective summary 254
Objective review 255

Objective 4.5: Implement recovery services. 255
Protecting servers with Azure Backup 256
Objective summary 262
Objective review 262
Answers. 263
Objective 4.2: Thought experiment 263
Objective 4.2: Review 263
Objective 4.3: Thought experiment 264
Objective 4.3: Review 264
Objective 4.4: Thought experiment 265
Objective 4.4: Review 265
Objective 4.5: Thought experiment 266
Objective 4.5: Review 266

Chapter 5: Implement an Azure Active Directory 267

Objective 5.1: Integrate an Azure AD with existing directories 267
Implementing directory synchronization 268
Integrating Azure Active Directory with Office 365 274
Configuring a custom domain 278
Monitoring Azure Active Directory 280
Objective summary 286
Objective review 287
Objective 5.2: Configure the Application Access Panel 288
Adding SaaS applications to Azure Active Directory 289
Configuring access to SaaS applications 289
Customizing the Access Panel and sign-in page 293
Configuring Multi-Factor Authentication 294
Federating with Facebook and Google ID 298
Objective summary 299
Objective review 300

www.it-ebooks.info

Objective 5.3: Integrate an app with Azure AD 301
Add a web application or web service 301
Adding a native application 307
Configuring graph API permissions for an application 309
Objective summary 311
Objective review 311

Answers 313
Objective 5.1: Thought experiment 313
Objective 5.1: Review 313
Objective 5.2: Thought experiment 315
Objective 5.2: Review 315
Objective 5.3: Thought experiment 316
Objective 5.3: Review 317

Chapter 6: Implement virtual networks 319

Objective 6.1: Configure a virtual network 319
Creating and configuring a virtual network 320
Deploying a virtual machine into a virtual network 324
Deploying a cloud service into a virtual network 326
Configuring internal load balancing 327
Objective summary 329
Objective review 329

Objective 6.2: Modify a network configuration 330
Importing and exporting network configuration settings 330
Changing an existing network configuration 332
Objective summary 334
Objective review 334

Objective 6.3: Design and implement a multi-site or hybrid network . . 335
Identifying the appropriate connectivity solution 335
Implementing a point-to-site VPN 337
Implementing a site-to-site VPN 340
Implementing a virtual network-to-virtual network VPN 342
Objective summary 350
Objective review 351

www.it-ebooks.info

Introduction

This book is written for IT professionals preparing for Exam 70-533 Implementing Microsoft Azure Infrastructure Solutions.

Microsoft Azure is the Microsoft cloud platform comprised of compute, data, application, and networking services. This book is written specifically for IT professionals who want to demonstrate their skills to implement and configure these services in Microsoft Azure.

At the time of this writing, two versions of the Web-based management portal for Azure are available. The current portal (the Azure management portal) is available at *https://manage.windowsazure.com*, and a preview portal (the Azure Preview Portal) is available at *https://portal.azure.com*. Throughout the book, as references to the portal are made, we use the Azure Preview Portal if the functionality is available in that portal. Otherwise, we use the Azure management portal. Chapters 3 and 5 reference only the Azure management portal because the topics discussed were not available in the Preview Portal at the time of this writing.

This book covers every exam objective, but it does not cover every exam question. Only the Microsoft exam team has access to the exam questions themselves and Microsoft regularly adds new questions to the exam, making it impossible to cover specific questions. You should consider this book a supplement to your relevant real-world experience and other study materials. If you encounter a topic in this book that you do not feel completely comfortable with, use the links you'll find in text to find more information and take the time to research and study the topic. Great information is available on MSDN, TechNet, and in blogs and forums.

Microsoft certifications

Microsoft certifications distinguish you by proving your command of a broad set of skills and experience with current Microsoft products and technologies. The exams and corresponding certifications are developed to validate your mastery of critical competencies as you design and develop, or implement and support, solutions with Microsoft products and technologies both on-premises and in the cloud. Certification brings a variety of benefits to the individual and to employers and organizations.

MORE INFO **ALL MICROSOFT CERTIFICATIONS**

For information about Microsoft certifications, including a full list of available certifications, go to *http://www.microsoft.com/learning*.

Acknowledgments

Bringing a book to print involves the work and dedication of many individuals beyond the author's names you see on the front cover. Without their attention to detail and coordination during technical and editorial reviews, this book would simply not be possible. Therefore, we would like to extend the sincerest thank you to the following people:

- Alison Hirsch
- Christina Rudloff
- Karen Szall
- Jeremy Johnson
- Trevor Sullivan

Free ebooks from Microsoft Press

From technical overviews to in-depth information on special topics, the free ebooks from Microsoft Press cover a wide range of topics. These ebooks are available in PDF, EPUB, and Mobi for Kindle formats, ready for you to download at:

http://aka.ms/mspressfree

And, if you're new to Microsoft Azure, download the free ebook "Microsoft Azure Essentials: Fundamentals of Azure". It provides both conceptual and how-to content for key areas, including:

- Azure Websites and Azure Cloud Services
- Azure Virtual Machines
- Azure Storage
- Azure Virtual Networks
- Databases
- Azure Active Directory

www.it-ebooks.info

Microsoft Virtual Academy

Build your knowledge of Microsoft technologies with free expert-led online training from Microsoft Virtual Academy (MVA). MVA offers a comprehensive library of videos, live events, and more to help you learn the latest technologies and prepare for certification exams. You'll find what you need here:

http://www.microsoftvirtualacademy.com

Errata, updates, & book support

We've made every effort to ensure the accuracy of this book and its companion content. You can access updates to this book—in the form of a list of submitted errata and their related corrections—at:

http://aka.ms/er533/errata

If you discover an error that is not already listed, please submit it to us at the same page.

If you need additional support, email Microsoft Press Book Support at *mspinput@microsoft.com*.

Please note that product support for Microsoft software and hardware is not offered through the previous addresses. For help with Microsoft software or hardware, go to *http://support.microsoft.com*.

We want to hear from you

At Microsoft Press, your satisfaction is our top priority, and your feedback our most valuable asset. Please tell us what you think of this book at:

http://aka.ms/tellpress

The survey is short, and we read every one of your comments and ideas. Thanks in advance for your input!

Stay in touch

Let's keep the conversation going! We're on Twitter: *http://twitter.com/MicrosoftPress*.

www.it-ebooks.info

www.it-ebooks.info

Preparing for the exam

Microsoft certification exams are a great way to build your resume and let the world know about your level of expertise. Certification exams validate your on-the-job experience and product knowledge. Although there is no substitute for on-the-job experience, preparation through study and hands-on practice can help you prepare for the exam. We recommend that you augment your exam preparation plan by using a combination of available study materials and courses. For example, you might use the Exam ref and another study guide for your "at home" preparation, and take a Microsoft Official Curriculum course for the classroom experience. Choose the combination that you think works best for you.

Note that this Exam Ref is based on publicly available information about the exam and the author's experience. To safeguard the integrity of the exam, authors do not have access to the live exam.
